To VPS Family,

We are informing you a student at Vinita High School has tested positive for Covid-19. We are following protocols set forth by the CDC and the State Department of Health and our school district, to decrease potential spread. We are asking parents to pick up high school students if possible. If pick up is not possible students will be safely distanced from other students until the end of school or when buses run. We have determined through contact tracing no other sites have been impacted and those sites will stay in session. Students at the high school will begin short-term distance learning while other sites will continue with in-person instruction. Parents of high school students will be notified when all students may return to school. Administration will be contacting those students who were determined to be in close contact. The affected student has not been present at school since August 26th.

Short-Term Distance Learning

Students without internet connectivity or without devices will attend school while those students with internet connectivity and devices will work from home. Students will continue in their same classes with their same teachers. Students will follow the lesson plans of their teacher using Google Classroom. Learning would take place off campus, but students would follow the due dates and timing of all students in their regular class.
